SUMMARY

Software Engineering graduate from NUML Islamabad (3.96 CGPA) with hands-on experience across AI agent systems, native Android development, and full-stack web applications. Skilled in LangChain/LangGraph RAG pipelines, Firebase-backed Android apps, and the MERN stack — focused on building reliable, user-centric software.

EXPERIENCE

AI Development Intern

Kartoa Technologies

Jan – Mar 2026

Built production-ready RAG pipelines and multi-agent workflows using LangChain and LangGraph.

Optimized LLM context windows and multi-agent state machines, resolving key token bottlenecks.

Requirement Engineering Intern

NUML x Alberuni Tech

Aug – Oct 2025

Gathered client requirements and authored SRS/BRD/Use Case documents to industry standards.

PROJECTS

Safe Zone — Parental Control Android App
